M200 INTERVENTION®

The legendary M200 Intervention® is the world's finest, most capable precision weapon system. Built specifically for military applications, the quick-change barrel and caliber system makes the M200 Intervention® a true tactical asset. Chambered in .408 CheyTac®, .375 CheyTac®, (.338 Lapua Magnum and .50 BMG coming soon), the CheyTac® M200 Intervention® is the only choice for extreme long range military missions.

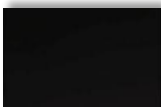

Caliber	Barrel Length	Twist	Rifling	Average Muzzle Velocity (FPS)	Magazine Capacity
.408 CheyTac	29.5	1:10	5R	2750	7
.375 CheyTac	29.5	1:9.5	5R	2950	7
.338 Lapua	29.5	1:9.3	5R	TBD	TBD
.50 BMG	29.5	1:15	5R	TBD	Single Feed Only

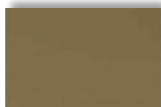

SPECIFICATIONS

- Overall Length: 56 inches (142.2 cm)
- Weight: 31 lbs. without optic (14 kg)
- 40 MOA standard optic base; 50 & 60 MOA options available
- Adjustable Timney trigger – single stage or 2 stage
- NSN: 1-005-01-515-5774

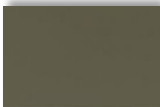

AVAILABLE COLORS

SUPPRESSORS | .408 & .375 CheyTac®

The CheyTac® USA M2 & M3 suppressors are designed for .375 and .408 calibers. Featuring a 3D-printed super alloy construction, optimized gas flow, and less felt recoil, the M2 and M3 suppressors offer impressive decibel reduction.

M2 Suppressor

Features

- Designed for .375 and .408 calibers
- 3D-printed from Haynes 282 nickel-based super alloy
- Vented K baffle system and six coaxial chambers for optimized gas flow and back pressure reduction
- Reduces flash signature for enhanced performance
- Minimal point of impact shift and no/low mirage effect

Specifications

- Length: 8 in. (20.3 cm)
- Diameter: 2 in. (5 cm)
- Weight: 24.6 oz (0.7 kg)
- 7/8-24 TPI Direct thread with HUB (Hybrid Universal Base) compatibility
- 130 dB at shooter's ear with .408 CheyTac®

M3 Suppressor

Features

- Designed for .375 and .408 calibers
- 3D-printed from Haynes 282 nickel-based super alloy
- Integrated brake for superior recoil reduction
- Minimal point of impact shift and no/low mirage effect

Specifications

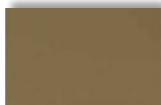

- Length: 8.1 in (20.5 cm)
- Diameter: 1.75 (4.4 cm)
- Weight: 19.8 oz (0.56 kg)
- 7/8-24 TPI Direct thread with HUB (Hybrid Universal Base) compatibility
- 133 dB at shooter's ear with .408 CheyTac®

Suppressors are a defense article as defined in ITAR and are subject to export control. Unauthorized transfer, re-export, or retransfer to a foreign person, including a foreign national, outside of the United States, requires prior written authorization from the U.S. Department of State.

AMMUNITION | .408 & .375 CheyTac®

.408 CheyTac® 419 gr. Balanced Flight®

- Patented Balanced Flight Projectile®
- Monolithic Copper Nickel Alloy
- Retains more kinetic energy passed 800 yards than .50 BMG
- .949 Average BC (G1) over 3,500 yards
- Weight: 419 Grain
- Velocity: 2750 fps

*Average values using standard 29.5" barrel with 1:10 twist

NSN: 1305015852330

.375 CheyTac® 350 gr. Balanced Flight®

- Patented Balanced Flight Projectile®
- Monolithic Copper Nickel Alloy
- 30 – 50% flatter trajectory than .338 Lapua, .50 BMG, & .408 CheyTac
- .988 BC (G1)
- Weight: 350 Grain
- Velocity: 2950 fps

*Average values using standard 29.5" barrel with 1:9.5 twist

NSN: 1305016722532

AMMUNITION | .408 & .375 CheyTac®

.408 CheyTac® Long Range Hollowpoint

- Weight: 390 gr.
- Ballistic Coefficient: .88 (G1); TBD (G7)
- Velocity: 3020 fps
- Will expand at 1400 fps – 1000 yards

.408 CheyTac® Long Range Tipped Hollowpoint

- Weight: 390 gr.
- Ballistic Coefficient: .88 (G1); TBD (G7)
- Velocity: 3020 fps
- Will expand at 1400 fps – 1000 yards

.408 CheyTac® Tungsten Core Armor Piercing

- Weight: 400 gr.
- Ballistic Coefficient: .97 (G1); .425 (G7)
- Velocity: 2920 fps
- Also available in Armor Piercing Incendiary

.375 CheyTac® Long Range Hollowpoint

- Weight: 350 gr.
- Ballistic Coefficient: .85 (G1); TBD (G7)
- Velocity: 3040 fps
- Will expand at 1400 fps – 1000 yards

.375 CheyTac® Long Range Tipped Hollowpoint

- Weight: 350 gr.
- Ballistic Coefficient: .89 (G1); TBD (G7)
- Velocity: 3040 fps
- Will expand at 1400 fps – 1000 yards

.375 CheyTac® Tungsten Core Armor Piercing

- Weight: 375 gr.
- Ballistic Coefficient: .95 (G1); .485 (G7)
- Velocity: 2995 fps
- Also available in Armor Piercing Incendiary
